I am thankful because u make all the fun stuff happen and I enjoy it and also my two sister enjoy all the tunes to so thank u Senator Lanza. Another thing I am thankful for is that when something bad happens to me then after that something good happens to me and that's why I am being thankful right now to you.

I am thankful for life because with ought a life would make me sad and I would be bored and not exist and that I have a life I can enjoy everything in the whole wide world. My favorite thing is to meet celebrities and I can meet them now because of you. And the last thing I am thankful for is that we have to go to school and learn amazing things that no one really knows and I can learn about religion because I used to be in an public school but know I'm not and know I can learn about God and Jesus Christ. This is why I am thankful to you Senator Lanza.
