

Senator Lanza Project: "What I am Thankful for"

I am thankful for many things in this world such as my family. I am thankful for my family because they always give me the love I need. Whenever I am sad they always cheer me up. They always care for me no matter what happens. They help me with everything I need help with such as homework. Without my family I wouldn't be here and I wouldn't be happy.

I am also thankful for the food that is provided for me. When my family sits down and we eat dinner we always pray to God and thank him for the food we have. I eat good and healthy food today from the help of God and my family. I am very lucky to eat the food that I have because some people don't get to eat meals like I do. I am more than lucky and thank God everyday for my family being able to provide me with such good and healthy foods.

I am thankful for having a roof over my head. I am lucky to have a roof over my head and live in such a safe environment because some people also don't have a home like I do. The house I live in provided comfort and shelters me. I am grateful for the beautiful home I live in which is filled with love from my entire family. I love the house I live in and have had so many memories in it that I wouldn't trade it for the world.

As you can see, I am thankful for many things. I am beyond lucky and grateful to have all the things I have and be surrounded by the people that care about me the most. But I don't just love them just because I need them or want them, I love them because they were a gift from God and my family and I would always take care of them. I wouldn't trade any of the things I have for the world and I love the people who provide for me everyday more than anything. That's why I am thankful for everything and everyone I have in my life.
