

I am Thankful

I am thankful for a lot of things but I'm most thankful for my family, my friends and my cat.

I am really thankful for my family members. My mom is great. She always helps me with my homework. She also buys me lots of things and takes me many places. My dad helps me out with my sports. I like hanging out with my dad. My family is amazing!

I am very thankful for my friends. I have friends in and outside of school. My best friend is Noah. We get along great because he is just like me. We have known each other from when we were two weeks old. I like playing with all my friends. Without my friends, I would be bored.

I am also thankful for my new cat, Austin. I have him only a couple of months but I love him. He is one years old. If you see him, you would think he was older because he is big. I rescued him from the ASPCA. As soon as I saw him, I knew he was going to be mine. I know he loves me too.

I am mostly thankful for my family, friends and my cat. I like playing with my friends, spending time with my family and playing with my cat.

What I'm Thankful For

Thanksgiving Day is for giving thanks across the United States. One thing that I'm thankful for is my family. I wouldn't come this far if it wasn't for them. I'm also thankful for my friends who are very supportive and for my education I get as well.

I cherish every moment that my family and I share. They're always there for me. They give me shelter, clothes, food, devices and way more. My family works hard just so my sister and I could be happy. I give my family so much thanks.

I'm really thankful for my friends that are always around when I need help with something. They are really supportive and I adore them. I wouldn't let anything happen between our friendships. All my friends always tell me their secrets and I trust them enough to tell them mine.

The last thing that I am also thankful for is my education that I receive. I have always been on the Honor Roll/Principal's List because of my well taught teachers. The teachers I have had for the past few years were awesome, sweet and helpful. Thanks to them, my future will be bright.

In conclusion, these were the three things that I am thankful for and why. I have loved every moment that has literally happened in my life.

What I'm Thankful For

Here are some things I'm thankful for and why. The first thing I'm thankful for is my parents. The second thing I'm thankful for is my sister. The third thing I'm thankful for is freedom. Those are some things I'm thankful for.

I'm thankful for my parents because they brought me to life. I'm also thankful for my parents because they feed me and care for me with all their heart. If it wasn't for my parents, I wouldn't be alive and healthy! I appreciate them with all that I have. These are some things why I'm thankful for my parents.

I'm also thankful for my sister because, she is the best sister, even though she is annoying. She is everything to me and my world would be nothingness without her. Those are some very important reasons why I'm VERY grateful and thankful for my sister.

Last but not least, here are some reasons why I'm thankful for my freedom. I'm thankful for my freedom because, because I am able to act, dress and do many things that other people can't do. For example, I've heard that in India people can't show their skin or hair! But in the United States we can. Also, people who came from other

places can believe in other religions they want to, and other gods to.

In conclusion, I'm very thankful for the life I live.

What I'm thankful for!!

Thanksgiving is a national holiday across the US. It's a day to be thankful. It is in the month of November. I am very thankful for, my family, health, school, and my happiness.

I am thankful for my family because they are my everything. They cheer me up when I am sad. I love each family member for a reason. I love my mom because she takes care of me and puts me and my sister before her. I love my dad because he always cheers me up. I love my sister because she looks after me and always does fun stuff with me.

I am very thankful for school. Without school I wouldn't be educated. If i am not educated I will not get a good job and have little money. And I would be living on the street. With school and education people can become a doctor dentist lawyer and etc. School is a very important place. That's why I am thankful for it.

I am very very thankful for my good health. Some people are not healthy. I am grateful that my family and I are healthy. I am glad I can eat good foods that keep me heathy.

Thanksgiving is a great day to spend time with your family and to be thankful for life and all the good things in life!

THANKSGIVING POEM

Dear Lord,

*As we gather together around this table
Laden with your plentiful gifts to us,
We thank you for always providing
What we really need
And for sometimes granting wishes
For things we don't really need.
Today, let us be especially thankful
For each other-for family and friends
Who enrich our lives in wonderful ways,
Even when they present us with challenges.*

*Let us join together now
In peaceful, loving fellowship
To celebrate your love for us
And our love for each other.*

"What are You Thankful for"

This thanksgiving I am so thankful to know that my Mother the person that I love most in this world is learning to live. Years ago my Mother was diagnosed with Lupus. Lupus is a chronic inflammatory disease that occurs when your body's immune system attacks your own tissues and organs. Lupus can attack many different parts of your body to include your joints, skin, kidney, blood cells, brain heart and lungs. My mother joints and skin was affected by the disease. Her skin developed a very bad rash all over her body. She had to take skin treatments which included going into a UV light chamber three days a week. Her joints caused her so much pain that it was so unbearable at times. I remember there were times when she had trouble just trying to get out of bed. With all the pain that she endured she would not let it hinder her from getting up and going to work every day. Through much treatment and doctor visits she began to learn that she can live with the pain. My mother is so strong and so courageous that she knew she had a family to support and that gave her strength to continue to work. I remember she always said that if she have to go to work every day me and my siblings had to go to school every day. My mother still to this day continues to work not one but two jobs to make sure that we have everything we need. I know how much my mother wants me to do well in school. I also know that when she gets in from work at night no matter

what time it is she always want to know how my day was and to make sure all my homework is done. My mother also told me that if I do well in school she would pay for me to play football just as well as basketball now you tell me how anyone can be more than thankful to have such an awesome mother. I am so thankful and so bless that God chose this amazing woman to be my mom. I just have to keep praying that God will continue to heal her body of this sickness and that one day the pain will go away. I know that through the good times just as well as the bad times that my mom loves me unconditionally and for that I am truly thankful.

What I'm Thankful For

What am I thankful for? I've heard this question a lot, although I haven't gotten the chance to answer it because it always leaves me thinking. I'm thankful for a lot of things, especially my friends and family.

I am thankful for my family because no matter what the situation, they always go above and beyond to give me the best. Although I've faced many ups and downs with my family, and many sad moments. We always bounce back to the happiest we could be. Out of all of my family members, I am the most thankful for my mom. Since my father passed away, my mom has had to play the role of a mother and a father for almost 10 years. She always does her best and tries her hardest.

Now, I'd like to talk about my friends. We fight a lot, but that's beside the point because at the end of the day we all love one another. I'm very happy to have the friends I have in my life right now. Even though I don't have many, I'm perfectly fine with the few I have (quality over quantity).

These are only a few things I am thankful for. I could go on and on, however, I decided to focus on the most important subjects. Happy Thanksgiving!

What I'm Thankful For

I'm thankful for many things. I am thankful for my family, friends, music and food. I'll begin with my family. They are the most important aspect of my life. They have been there for me through everything and I love them. They put food on the table, a roof over my head and clothes on my body. We laugh together, eat together and always have fun.

Next, I am thankful for my amazing friends, who manage to put up with my weirdness and craziness. They are always there for me and make me laugh until my stomach hurts.

I'm thankful for many other things as well, yet these are the most important to me.

HAPPY THANKSGIVING!

The Things I'm Thankful For This Year

I'm thankful for many things. I believe these things are important in my life. I'm thankful for food and water, because in order to maintain life and growth we need food and water. I'm thankful that I'm healthy and I'm in good condition. I'm very grateful for the remarkable education that I'm being taught, because one day I want to be an astronomer, which is a scientist the studies space, and an oceanographer, which is a scientist that studies the ocean.

I am thankful for all the teachers in my life that have supported me on my educational skills, and helped me gain intelligence every year. I'm also very thankful for my astonishing fifth grade teacher Ms. Roberts. Ms. Roberts is fun, lovely, helpful, careful, and educates me very well, and I love her, and all my teachers.

I'm thankful that I do a phenomenal job in school, and please Ms. Roberts in every way. I'm so grateful for all my friends, because they're kind to me even if we fight a little. My friends always support me, and help me, and I think all my friends are important in my life. The last thing I'm so grateful for and I can't live without is my family. My family is the most precious thing I have that I would never give up. I love my family so much and they love me. That's what I am thankful for this miraculous year!!!

These Are The Things That I'm Thankful For

I'm very thankful for the family that I have. My mom makes my favorite meals for dinner, and lunches for school. She always makes sure what we eat is also healthy. My mom is always trying to discipline me, so I can be an organized person. My dad helps me with my daily homework, and he always allows me play after school. I'm grateful that I can talk to my dad as a friend.

My grandma from my dads' side, whom I see every weekend, is very kind and sweet to me. When I arrive at her house, she'll hand over control of the TV so I can watch my favorite shows. My grandma from my moms' side visits twice a year from the Ukraine. I'm grateful for all the varieties of chocolate and toys that she brings for me. She is very funny and playful, and she is also very, very, sweet to me. My dad's brother (my uncle) and I have common interests, we text each other funny messages. Since we both like video games, I enjoy talking about all the types of video games with him. When I talk with him about video games, it's like he were a kid.

I'm thankful for the pets I have. My dog Andre likes to bite my slippers (it's very funny), and he's very playful. He's also very cute. My cat Marsha loves string, but doesn't do much. I also have another cat named Mia, she runs away from me. My last pet Cici is a cockatoo (a type of parrot), that laughs (it's so hilarious), and sometimes wants to bites me.

I'm thankful for the friends that I have. Anthony lives next door to my house. We like to go to each others' houses, and play our favorite games. Alec and Christian were the friends I made in pre-k. We would have play-dates, and come to each others' houses and birthday parties. I met Cris when I was in second grade, and are still in the same grade today. We play games at recess, talk at lunch-time, and play after school.

I'm thankful to all the participants that make my life happy.

I'm thankful for many things, but there are three main things I am thankful for. The first thing I am thankful for is my family, they're the best. My family does a lot for me, they are nice and they are helpful. They help me with my homework and help me study, so I don't fail. My mom cooks, cleans, and walks my puppy and feeds my puppy. This is why I am thankful for my family.

The second thing I am thankful for is my teacher and school. I'm thankful for my teacher, because she teaches me many important things such as math, writing, science, social studies and more. My teacher is the best, because she is fun and she teaches me too. I'm thankful for school, because they are the ones who let us have all these amazing people who come in our classrooms, like Art, Music, Gym, and Library. This is why I am thankful for my teachers and school.

The third thing I am thankful for is my puppy. My puppy is so cute and playful; I play with her every day. She is only two months old, so we don't take her outside. She gets along with other animals. My sisters and ma share the puppy, but I mostly play with the puppy this is why I am thankful for my puppy.

Elizabeth Shaji Samuel

What am I thankful for? Well, I am thankful for God. I am thankful for God, because he keeps me and my family safe and he is helpful to my family and I know he lives in my heart. What else am I thankful for? Well, I am thankful for the Earth. I am for thankful for the Earth, because I get to live on the Earth and see the beauty of the earth like fall, winter, summer, and spring. In addition, I get to see the waves of the ocean and see the amazing plant.

Another thing I am thankful for is the country, America. I am thankful for America, because we have received freedom. The other thing I am thankful for is my parents. I am thankful for my parents, because they provide food, shelter, and love to me and my sister. Also, another reason I am thankful for my parents is when I am sick they would take care of me.

Another thing I am thankful for is my teacher. I am thankful for my teacher, because she makes me get smarter and understand things better. She also gives me a really good education. I am thankful for my best friends. I am thankful for best friends, because they always have my back, like if something happened they would always help me. Well, I am also thankful for my great aunt and great uncle. I am really thankful for them, because they were the people who brought my parents here to America, without them my parents would have never come here. I am really thankful for my sister, because she is always helps me with my homework and she always shares everything with me.

Also, I am thankful for my uncle and my aunt. I am thankful for them, because when my parents went to India for a funeral they took care of me and sister for three weeks. I am also thankful for my dog Cookie, she was the best, and she always would greet us when we come in, but then I found out that I was allergic to dogs.

In addition, I am thankful for the soldiers, because they keep America safe. Another reason I am thankful for the soldiers, because they are the biggest heroes to people who live in America. Those are the things I am thankful for, what are you thankful for?

Thanksgiving Poem

*Here and there family everywhere
fun times we share.*

*Here to stay not to roam
in my little cozy home.*

*Pumpkin pie cheesecake too
made especially for you.*

*Turkey roasting
potatoes toasting.*

*Peace and love, together we stand
everyone is feelings grand.*

*Red, yellow, green,
these are the fantastic colors that can be seen.*

*Wind blowing, howling too
letting the leaves have a dance or two.*

*Cornucopias here and there
we love them everywhere .*

*Tables filled being attacked
food piled high nice and stacked .*

*Say the blessing or the prayer
to show we care.*

*At the end you could
make a new friend.*

That's what Thanksgiving is all about.
