

Who I am thankful for.

There are many different things that I am especially grateful for, but there are also people who I am very fortunate to have in my life. First of all, I am very thankful for having two loving parents who care and help for me, I love them because they are very kind, and if it wasn't for them, I would not have a roof above my head, food on my plate, or a bed to sleep in. I also wouldn't be able to attend the great school I am in today. Overall I am very fortunate for having such a big and loving family. They make me feel better whenever I am sick or sad. Another group of people that I am very thankful to have are the teachers and staff at my school. If these people did not give us many hours a day teaching us new things, I would not have the same education and not know many things that I do today. I am also thankful for the special services of New York City such as the Police department, Fire department, Sanitation that keeps my family and I safe healthy and clean, because they also give their time sometimes even for a whole day, ensuring that our city is okay. Another person who I am thankful for is my older brother. Even though we don't get along sometimes, he always is there to help me. I do not forget about my younger brother because even though he may be a bit annoying most of the times and may not be a little too smart, he always is there to cheer me up. If it weren't for these people, my life would be completely different.
