

Who I am Thankful for

I am mostly thankful for my parents. They yell at me sometimes, but I know that they will still love me, and would never let me go. Here are some examples why I am thankful for my parents.

Some examples of who I am thankful for my parents are that they provided a house so that my family and I could have a roof over our heads when it is raining. Another reason why, is that when I fall and hurt myself, my mother or father always bring me to the doctor. I know that they love me because they can always bring me to school and feeding me with healthy food. They also take good care of me. They also have money to take to places such as movies, plays, or to museums. If there is something going wrong they will always come to help me right away.

If you have something that you are thankful for, there are many people in the world you can express the world.
