

Who am I thankful for and why

Here are some people that I am really thankful for. These people are narrowed down to the most important in my life. My mother is the most important person to me. My mom is a mom that takes care of me and my other siblings. She buys me whatever I need; she makes me very tasty food, and she also loves me. I am really lucky to have a mother like mine to take good care of me.

Another person that is very important to me is my father. My dad has taught me many things from the alphabet, to showing me how to draw a zebra. My dad had educated me how and what to do the way he taught himself. My dad helps me do many things I can not figure out by myself. My dad is like a mentor, a mentor that is the best mentor in the world.

The last person I am really thankful for is my friend. Jakub. He is my best friend from Poland. He was a teacher for me when I was there, because I knew very little Polish. One thing that he taught me was how to ride and control a mini motorcycle. He is very good to me so I am very good to him. We only spend 1 month together on vacation so we spend a lot of time together. Do you have people that are very special to you?
