I'm thankful for these things because, some kids and people don't even have the things I have in my house right now. Me and my mom pray for those people who don't have homes, beds to sleep on, have food to eat, or have anything I have. I care for those who are out there. I am glad that I can wake up in the morning simply waking up today means I have things to be thankful for. I'm also glad that I have good eyesight, because some people in the world are blind and others may just have bad eyesight, and I'm glad I'm able to see allows me to view the world's beauty. The world I am living in right now shows me I have to be thankful for what I have. I'm glad that I have all of these things, and I thank God for that.

I am thankful for...

There are many things in my life I am thankful for. I am thankful for my wonderful family because my family is always there to help me and make me happy. I know there are some people that can not afford food. I am very thankful for food, because without healthy food, I would starve and die. I am thankful for my happy home, because I feel safe and loved. My family has lots of celebrations at home. I am thankful for my school, because I have fun friends and my teachers are awesome. One other thing I am thankful for is my iPad. My iPad is very cool and I can do a lot of fun and educational things on it. I love it because my iPad keeps me connected to all my fabulous friends. I love my life and am very thankful for every part of it. I want to thank God for blessing me with such a wonderful life.

There are many things in my life that I am thankful for and one thing is my friends. I am thankful for my friends because they help me with things that I am not good at, they stand up for me, and they also would give up important things to help me with something. Another thing I am thankful for is my family, which are my brother, my mother, my father, and my grandmother. I am thankful for my brother because he helps me with my homework when I don't understand it, since he has already been in fourth grade. I am thankful for my mother because she helps me understand things that happen in life and she helps me learn how to handle difficult situations. I am thankful for my father because he helps me when I don't understand something at basketball practice and at home. I am thankful for my grandmother because she takes care of me when my mom and dad are at work. She also cooks great meals for us even though she could still be in bed sleeping or watching television. The third thing I am thankful for is my clothing. The reason I am thankful for my clothing is because so people in the world don't have clothes and are freezing during winter and fall and I am glad that I am not cold because I have no clothes on and I hope that people in the world who don't have clothes get clothes soon. And that leads us into what I am hoping to happen. I hope that all the poor pray to God and other people pray to God that poor people are not poor anymore. The fourth thing that I am thankful for is my food. The reason I am thankful for my food is because if I didn't have any food I wouldn't be able to survive and I would be starving. Finally the fifth thing that I am thankful for is a roof over my head. I am thankful a roof over my head because if I didn't have a roof over my head I would be cold at night, I wouldn't have a place to sleep but the streets or the woods, and I wouldn't have a nice comfortable bed to come home to and to lay down on. These are the things that I am thankful for.
