What I am Thankful
For

I am thankful for the family I have. I couldn't wish for a better family. There is nothing I would change about them. Here are some things I do with my family.

My little sister, Stephanie and my twin sister, Nicole and I play a game called Minecraft together. It is never boring at home because there is always someone to play with. My big brother, Michael and I play video games together. Although he is a lot older than I am he always makes time for me and finds stuff we could do together that we both enjoy. The time I spend with my dad is really special. He takes me to Citi Field to see the Mets. Even when I

don't go anywhere with my dad
I still have a great time, My
mom is very caring, she works very
hard and takes care of us, she deserves
a lot of respect
I am thankful for my family
for infinite reasons, I am glad I
have family like this, I feel really
loved.
