What I am thankful for

I am thankful for a lot of things but I am mostly thankful for having healthy and educated siblings. I love my brother and sisters and sometimes they annoy me but just imagine how bored I would be without them.

I am thankful for my siblings being healthy and educated because some other people have siblings with diseases or even disabilities. I am thankful for my siblings being educated because most kids have a hard time learning. They get distracted very easily, and even have autism. I am thankful that my siblings are healthy because some kids have to go to the hospital often. My brother and sister are three years old and love to learn. My sister is six months and she is a very healthy baby. They are so funny and cute. They entertain me everyday.

My little sister, the six month old baby's name is Sophia and she is the cutest. She thinks she can talk and she screams a lot. My sister, the three year old girl's name is Summer. She is really funny and loves to sing and dance. She also loves to dress up as a beautiful princess. She especially loves her three year old brother, London. He is funny as well and he loves his toys. He also likes to

dance and watch television with his twin sister, Summer.

I am so thankful that my brother and sisters are well educated and are healthy. I am so happy that I am a sister to my amazing brother and gorgeous sisters.
