"What are you thankful for"

11/13/2016

I am thankful for my friends and family. They are very important people in my life who surrounds me. They love me, protect me, guide me, and the most important thing is that they inspire me to be the best that I can be. I am thankful and lucky to have them because many kids my age don't have parents and friends to spend time with.

I feel sad and devastated that kids my age have to work, have no place to live, and live in places where wars are happening. Unfortunately, some kids don't get to experience fun childhood memories like me. I wish and hope that these kids can get guidance, love, and support like the kind I receive every day.

That is why I'm very thankful and blessed to have my friends and family because I know that they want me to remember and enjoy my childhood when I get older. So I am lucky and thankful for my life.
