

This Thanksgiving I am most thankful for...

The people that I love, such as my mom, dad, sister, many dogs and my friends. I am also thankful for our lives being possible with food, a home, people who protect us, and the earth. Because of these things I am thankful and have what I need. Lastly I am grateful for how lucky I am. For example I can learn by going to school and using my computer. I also can have fun at the park and go on many vacations. I am grateful for these things because a lot of people don't have these opportunities. These things bring joy into my life.
