

This Thanksgiving I am most thankful for...

a home, food, clothes and good health I am also
grateful for many more things such as my family
who loves me, my friends and pet hamster and being able to get to
school after school activities, and different kinds of camps. Both
of my parents have jobs that support our family and
that I live in a free country where anything can happen that
I have so many toys of cars play with and all nature
and its processes. There are so many things to be thankful
for in the world!
