

This Thanksgiving I am most thankful for...

Having a family to love and cherish. Also for having  
a good education so I can become very successful in  
the future. There are many people suffering from poverty  
and begging for food. I am very lucky that I am not  
part of any kind of suffering or poverty. There  
are also millions of families who don't have clean or  
running water, so it's a blessing to have those  
gifts. Also some states and countries have tragedies  
with no hospitals or businesses and are very glad  
to not be part of those things.
