

I'm thankful for my family

Jimmy Lee

11/17/2016

I'm thankful for my mom and my dad, because they help us buy the thing I want and send me to America to learn and spend time to help me study my homework. My mom help me buy Taiwan self study book and help me study.

I'm thankful for my grandma, because she help us make lunch and dinner or else we every day well eat easy noodle and my grandma rise is better than my dad. Everyday when we came back from school my grandma already prepared our snack.

I'm thankful for my sister, because she will play with me or my dad say if my sister is not born in America I won't come here to learn because she has an American passport.

I'm thankful for my aunt and my uncle because they help me find a school that we love . They help us find the after-school classes and help buy our school uniform.

I am thankful for these people because they really help us a lot. I'm happy I have them in my life.

At last, I want to say thank you for everyone I write about and to.
