What I am Thankful For

Directions: Use your quick outline to help you write about what you are thankful for this year

I am thankful for a lot of things this year. I am thankful for the wonderful friends and I have because my friends make me laugh and we have a good time together. I am also thankful for family because if I didn't have them I don't know who would keep me company or if I didn't have a little brother I don't know who I would play with when I'm alone. The third thing I am very thankful for is the delicious food that I eat and the kind community I live in. The final thing I am thankful for is all the amazing animals still left in the wild and the ones that are endangered will hopefully be saved from extinction. Making the animals safe will make me even more thankful. These are all the things that I am thankful for.
