The things I am thankful for:

I am thankful for food, my home, and clothing. I am also thankful for my mom, my dad, my sister, and my brother. My sister is a doctor that's why I am grateful for her because she helps people when they are sick. I am grateful for the sheets on my bed. I am blessed for the books and notebooks to write with at school. I am grateful that I have a jacket when it is cold. My mom has a bakery so my dad and I can go to her bakery and eat. I am happy we are going to make an invention at school. I have amazing friends to help. Also my dad because he works at a shop that he can help me with my invention. I am grateful for the sheets on my bed because they help me to keep warm all winter long. I am thankful for my family because they will always help me and they are the best.
