Thankful this year

This year I am really thankful for my mom, my mom is nice here is why I am thankful for her first she cares for me, when I am sick she puts me in the couch and gives me medicine so I can recover. She starts with me even though she has to go to work.

More so she helps me with almost every thing. She comes in to my room to see if I am stuck on something she helps me prepare for tests that are coming up.

Adding on to that my mom is very nice, she is playful and always happy, we play chess cards, Not only we play we make special holidays for example, On November 15 we have sushi night, and on the 27 of December we have hot marshmallow chocolate stew. And on August 17-19 we go fishing in to the creek lakes.

In conclusion my mom is very very nice, I am really thankful for her, we have a great time together we love making holidays and playing together, we keep each other happy, No one in our family is upset.
