

Thankful

I've been thankful for a lot of things. I'm thankful for my family because they have been there for me in sad and bad times. My three brother care for me. We do fun things together. My mom and dad love me so much. They are the best! I love my grandparents they make my family laugh. Ok, I'm thankful for my community because they give people love and affection. They make my mom and me laugh and my family smile. I am thankful for all these wonderful things.
