

I'm thankful for education, food and family. Education because it helps me for the future. Food because it fills me and makes me survive. And family because they care help me be the person who I am.

HAPPY

THANKSGIVING

ING

I am thankful for

Family

They come around when we need help,

We fight, and argue everyday,

There our closest friend,

Although we never show it,

The ups and down they come around,

Sickness and health they come around,

My family means the world to me,

No One or thing can change that

I am thankful for

Family!

Function of Anecdote

Anecdotes and humorous pieces are not only jokes, but exquisite literary devices as well. Their major purposes are to stir up laughter, to disclose a truth in a general way, or to describe a feature of a character in such a way that it becomes humorous and at the same time gives us a better understanding of the character.

Anecdotes may also serve as cautions. Writers tell their readers about the possibilities of future happenings in case they do not follow particular processes and techniques.

Thanksgiving Thanks You

When the day has come to look back
To think of something to be grateful for
And although my memories lack,
I remember you guys from the start
For we have been together so long
And you have earned my trust,
With that my emotions for you are true
Don't worry our friendship will never rust
When you call I am here and you too
To you who gives me a better day,
And this might all sound lame,
But hear for what I'm about to say,
I love and thank you both,

For each of you that keep me sane,
And so I make you an oath,

I promise this won't go down the drain.

Being without you hurts like a blister,

Because you are the ones that earned the title sister.
