Do you want to know a few things I am thankful for? One thing I am thankful for is living in an environment that has freedom and no slavery. I am also thankful for having a loving family. Another thing I am thankful for is that I can go to school and live somewhere where people can be themselves and also believe in their own religion! One of the most things that I'm thankful for is that we have government that keeps our country straight. Most of these things I am thankful for are examples of human rights and I am thankful all of the human rights! These are a lot of the things I am thankful for.
