

What I'm thankful for

I am thankful for the earth. I am thankful for the earth because it has a lot of air. The next reason I'm thankful for the earth has nature were a bunch of trees and food are. The next reason I appreciate the earth is for its food. I'm also grateful for water. I am fond of water because it keeps me hydrated. The next reason im fond of water is because it lets me go tubing. The last reason I'm grateful is i can swim in it. That's what I'm thankful for.
