

“I Am Thankful”

The term “thankful” means I am overjoyed because I love things. I am thankful for my family because my family loves me for who I am and they care about me in all ways like if I mess up or if I don’t get good grades on my 5 week report. I am thankful for my friends because they are always there for me when I am feeling blue or when I don’t get good grades on my report cards. I am thankful for my house because it gives me a place to sleep and live in and have fun when it is a rainy day outside. I am thankful for music because I love music. It helps me think and gives me inspiration when I am painting. I am thankful for sports because it helps me get faster and stronger. I am thankful for food because without food the whole world would go hungry. I am thankful for pets because without pets everyone would be alone. I am thankful for sleep because without sleep everyone would be so tired and not want to do anything at all. I am thankful for pizza because without pizza I would not live. I am thankful for singing because I love to sing and without singing I would die without singing. I am thankful for love because without love no one would like anyone so thank god for love. I am thankful for hope without hope no one would care. I am thankful for believing because no one would believe in God so thank God for believing.
