

"I Am Thankful"

These are the four things that I'm thankful for

I'm most thankful for is my family, they take care of me and also be there for me.

Without them my life would not be the same.

I'm also thankful for my house, if we didn't have our home we would not have heat, shelter or comfort.

The next thing I'm thankful for is school, without school I would not have an education and learn new things. School also can be fun because I get to see my friends.

The last thing that I'm thankful for is my health. If I'm unhealthy I would not be able to enjoy life like I do now.

That was the four things that I am thankful for in my life.
