

## “I am thankful”

The word thankful to me means to appreciate something or what someone did for you. I am thankful for many things, but I am only going to share a few.

The first thing I'm going to tell you about is that I'm thankful for my mom and dad because of their support and they are always there for me, such as when I wanted to play volley ball or be in battle of the books .This year I'm in student council, chorus and band where my parent are extremely supportive to me.

The second thing in thankful for is my puppy, Dragonfly. She cuddles with me when I walk her. It clears my head from a long day of school. She is always there when I need to talk to someone when my parents and family are busy with things.

I am also thankful for my brothers because they are there to cheer me up. Like when I get hurt they cheer me up. They cheered me up when I sprained my ankle, by giving me hugs, kisses and hanging out with me. They also enjoy watching television and movies with me.

The last thing I'm going to tell you about is my grandpa, his name is rick. My grandpa provides my family with a house to live in. Also he sometime watches television or movies a lot of the time. We watch horror movies a lot tighter .I also love cook and bake for him and he is always willing to try it.

In conclusion I am thankful for many things, but most of all family .for it wasn't them I wouldn't be the person I am today. There are a many other thing I am thankful for.
