

## “I Am Thankful”

The term “thankful” means to me, something that you are glad to have. I am thankful for a lot of things.

Something that I’m thankful for are my parents. They take care of me, buy me whatever I need, and most importantly, they love me, and I love them. I’m also thankful for my friends. They can always make me laugh, even when I’m miserable.

Another thing that I’m thankful for is music. It’s fun to listen to, especially when I’m bored. One more thing that I’m thankful for is food. It always makes me cheerful to eat food because it tastes so good, except vegetables. I hate vegetables.

As you can see, those are some things that I’m thankful for. I’m thankful for my parents, friends, music, and food. I don’t know what I’d do without them.
