

Thankful for essay

Around November it is important to thank the people around you for all that they do for you. We should do this because the holiday Thanksgiving is in this month. For example, I am thankful for family, technology, and sports. I am thankful for many things but these are just a few. Without these my life wouldn't be the way it is right now.

First, I am thankful for family which is one of the most important things in my life. To start off I am the oldest of three. I have two younger sisters, Ashlyn and Brielle. I also have an awesome mom, dad, and great-grandmother who lives with us. One thing I do with my family is almost every Saturday we play in the backyard and at night we watch movies. This is why my family is important to me

Next, I am thankful for the wonderful technology. I am thankful for technology because it makes it easier to do research for school. For example, in Social Studies we did a Neolithic vs. Paleolithic poster project where we had to research many things about the two different types of people. Also, it makes my life not as boring as it would be without technology. Other examples are my Playstation 3, Wii, and projector. I use my projector by watching outdoor movies. I use my Wii and Playstation by playing games to help me from not becoming bored. This is why I am thankful for technology.

Finally, I am thankful for sports. My favorite sports are running, soccer, football, and baseball. I like running because my parents trust me to go running by myself, but mostly with my cousin to really far places. I like soccer because I can make goals and practice dribbling. Also, I like football because I can throw, catch, and watch it on tv. Another sport I like is baseball because I can throw, catch, hit, and run the bases. These are a few reasons why I am thankful for sports.

In the end, I am thankful for several things.. Without these my life wouldn't be the same. Whether it is family, sports or technology these things make my life awesome. Also, this is why you should thank everyone around you. These are a few reasons why I am thankful for these things.
