

Thanksgiving by Lucas Santos

Thanksgiving I am thankful for my parents. I am because they work really hard for all the things I have. Like my clothes, my food and the house I live in. All of the toys I have and electronics that I play with. They pay high taxes so I can get the good education. When I moved from Carle Place to Mineola they didn't move close to my old house. They did because it is a safe town and they didn't want to move to a bad town or an unsafe town. Also they are thinking about me because they know I don't want to move away from my friends. They have a lot of faith in me and pressure in school to do well. They pay money for me to play sports because they know I really want to play. If I get into fights at sports they say I am taking you out. But they know you want to play so they leave you in because they love you. They also buy me things and treats and you have to thank them. That is we I'm thankful for my parents and love them for all of these responses and more.
