THANKSGIVING

Thankful for my family, friends, and community.

Happy and grateful for the things I have in life.

Able to understand the difference between right and wrong, and help others along the way.

Never forgetting to give thanks to God for all that I have.

Knowing that I have two working parents that are able to give me the things that I need and would like to have.

Forever thankful for the teachers that come in to school every day to teach the students and give us a better education.

Understanding that others are less fortunate than me.

Love and support is what I get from my family and friends and without it the world would be different.
