MY WONDERFUL LIFE

I'm thankful for my wonderful life with my family, friends, food and my house. Some people in the world are so poor that they don't have a house. My family gave me a nice house to live in and I'm lucky to have it. My friends keep me company when I'm bored. Finally, my family always has food unlike many other people on earth. I'm very lucky.

On Thanksgiving we are ready to share what we are very thankful for, so that's why I'm sharing with all of you. Our community is very great and we should be thankful for that this Thanksgiving. The people of our community are probably all thankful for different things and will share what they are thankful for with their families on Thanksgiving. I love my family and tell them that I love them and I hope other people love their families too because maybe some people in your family you only get to see once a month.

Our friends will keep us happy and help us when needed because that is what friends do. We were gifted food and water from God because He knew that we couldn't survive without it so that is why we should be thankful for every meal that we have. So what are you thankful for this Thanksgiving?
