Thanksgiving you spend time with the people you love and its a great time to say what your thankful for its not just about food.

I am thankful for my family because they love me support me and care for me.Im also thankful for my friends because they always got my back know matter what they also make me happy when im sad.Im very thankful for my dog max even though hes not with me anymore hes still in my heart all the time.Im very thankful for food water tecnoligy and a roof over my head.Im really thankful to have God hes with me all the time even if i cant see God i know hes always there.Im thankful to have tecnoligy such as TVs Ipads and Iphones even light.Im thankful for freedom to do what I want to do in life.im even thankful to have holidays so that i can have a fun time.Im thankful for life.

Some people dont have these things like a dog or food or water or even shelter.But im very thankful that I have these things.Most people are not thankful for what they have like food water and shelter but we all should be thankful for what we have.But we should all be thankful for God we would not have life if it wasnt for God.We should all be thankful for what we have.
