I am thankful

I am thankful for many things. The first thing I am thankful for my family. They are always nice and kind. They play lots of games with me. At nighttime they give me hugs and kisses. They also feed me and love me. I am so happy when I get to read my siblings books. After school they help me with my homework. Another reason I am thankful for my family is they tell me that I'm special. They also let me go places like church. Then they let me do piano lessons, and ballet. They are the best family ever. This is what I am thankful for.
