

I Am Thankful For America

I am thankful for a life in America,
with good education all around.
I can wake up in a house,

\\\\\\\\\\\\\\\\ feeling safe and sound.

School provides me with books,
that give me knowledge when I read.
So, I have a choice when I get older,
to be moneyless or succeed.

I can come home with food on my table,
which my family has provided for me.
My family and friends are a huge part of my life,
as you can see.

I meet new people everyday,
and they're unique in their own special way.
So live your life to the fullest,
and take risks while you go.

So, this Thanksgiving I want you to remember,
how privileged you are.
Thank the people around you for
what they have done!
