

I'm thankful for... my family because they love me and care for me. I am thankful for that I have a nice warm house to live in when it's cold out. I am thankful for my dad because he works many hours in the day to , so that he can earn money to buy us the stuff that is needed. I am thankful that we have a car to get places. I am thankful for the teachers I had in the past because they helped me learn what I needed to learn. I am thankful for my friends because it would be boring if no one had any. I am thankful for my mom because she looks after us and helps me when I need help. Most of all I am thankful that I was not born with and medical problems or diseases. What are you thankful for?
