THANKSGIVING

In November there's Thanksgiving.

It's a time to be thankful for.

We see family, friends, and have lots of fun
and there's also many more.

When the pilgrims came over here a whole lot of them died.

The Native Americans met the pilgrims and showed them how to survive.

They were friends with each other and helped one another.

They kept each other alive.

Then, they celebrated and had a feast.

They decided to call it Thanksgiving.

They ate a lot of food and thought it was nice
because they were thankful that they were still living.

On Thanksgiving we eat a lot of stuff. Here's some.

There are mashed potatoes and gravy, stuffing, coleslaw, and beets.

Then, there's cranberry sauce, pumpkin pie, roast turkey, and other meats.

Thanksgiving is a nice holiday and we can eat a lot of sweets.

So thanks for Thanksgiving.

It's the time that all our family is near.

Everyone will remember the day in November.

Now, Thanksgiving is here.
