

Thankful

Thanksgiving is a time
to be thankful
I am thankful for food
on the table
I am thankful for you and me
We are grateful for family
Together we are thankful for being safe
We are thankful for our teachers who educate
We are thankful for going to school
That makes us smart and gives us brain fuel
We are thankful for choosing right
And getting to live without strife
We give thanks for religion
And the opportunities that we are given
I give thanks for my home
That keeps me warm in winters cold
I am thankful for living in America
and for being free
While living a life that I get to lead
