

# I'm Thankful For...

By; Olivia Auffarth

# Light

I'm thankful for light because without light people would not be able to experience life and wonderful times. Light opens up people's eyes to their surroundings. Therefore, experiencing wonderful times together. Light is what makes people who they are today. To be thankful for light is like being thankful for everything.

No light is equivalent to no life. Without light the world would be nothing. Animals, plants, and humans included. Imagine a plant trying to grow without any light. Light is the main source of energy a plant requires. For instance, sunflowers always grows towards the direction of the sun. The lack of light is a big problem for every living organism on the planet.

Light is involved with many figurative meanings. The poem "The Road Not Taken" is about a man trying to find his way out of the woods but, intersects with a fork in the road. He can not decide which road to take. This poem relates a lot to life. In a way the person in the poem is trying to make a big choice in life. At the end the person takes the lighter path.

Light has many meanings. To me light is the future. It will be around forever. Light is figurative and literal yet, meaningful. I'm thankful for light because it opens people's eyes up to experience life and wonderful times. Light is leads me on the correct path.
