

What Are You Thankful For?

I am thankful for the roof that I have over my head. I'm thankful that I have a family to help me and my sisters if we get sick. Also, I am thankful for the crops that I eat every day. If I didn't have any crops or any food, I would starve.

In addition, I am thankful for the devices that I have because without money to buy the device, I wouldn't have the devices now. I am also thankful that I have an education because some kids around the world don't have an education. I'm thankful for the clothes my family and I wear. Lastly, I am mostly thankful that I am alive today.
