The last Thursday of every November is an American holiday we all Knew as Thanksgiving. It is a time for friends and family to come together. Share a turkey dinner and to find What we are thankful for.

My family celebrates Thanksgiving at my house. My parents take turns cooking, or they both cook with eachother. This is a special time of the year at my house when my family get together. It makes me think about all the things I am grateful for. first of all I never have to worry about not having clothes on my back. There is always food in my haise. I don't have to be hungry. My home is a comfortable place to live. I have caring parents and good brothers.

These are the many things I am grateful for. I am grateful fer caring parents, a place to live, and good brothers.

For thanksgiving I am thankful for many things. One is my family. My mom and dad provide me shelter food and games. They also help me with life, and school. If they wouldent help me with school I wouldent have good grades and I might not get a schollership or go to college. Im thankful for Utica Berec because they help me follow my dreams and make me become a better basketball player. Im thankful for my friends for unthusiams me to be a better person.

"What I'm Thankful For"

As Thanksgiving approaches, I think of a family tradition that we do every year. In my family, and I think many other families too, we go around the table and ask everybody what they are thankful for. Now, I want to share with you some of the things that I am thankful for in this past year. The first thing that I am thankful for is my great family, that not only includes my immediate family but my extended family as well. They are all important to me because they are always there for me. They lift my spirits when I am down and always encourage me. Another thing that is important to me and I am thankful for is that I have now and have had great teachers. I wouldn't do as well in school if they weren't so encouraging and smart. Although I really am fortunate to have great teachers, I figured I would get a better grade on this if I mentioned it. (Ha-ha) Lastly I am thankful for my friends. They are genuinely nice people with whom I can be serious with, play sports with, do homework with, or just joke and have a good time with. These are just a few of the many things I am thankful for this year. If you don't already do this tradition in your family, give it a try this year. I hope you have a safe and blessed holiday season this year.
