Subject: Please allow me to give testimony, i won't take longer than 1 minute

This is what I will say:

My name is Rasheedah Harris. I live in the Bronx, school d11, Morris Park, Senate District 34  
Biaggi is state Senator

My daughter attends school In East Harlem el barrio school d4, senate d30 & Benjamin is her  
schools state Senator

I'm Here as a parent. A very active parent.

I just want to say that I'm here as a parent. I've had DOE administration already tell me they can not help spread the word on "CFE" because it's "political motivated" we need more civic education! Our children, parents, community members AND SCHOOL STAFF need to learn about our political system! We need to learn about the budget and expenditures! Most important we need to learn about this campaign for fiscal equity and the history, the foundation aid and the current status. I'm not here to say how much we need our money. I can say we need our money until I turn blue. I'm here to say, I will go to all the pta meetings city wide! & spread the word! I will let folks know they have the power! I will go to all the PTA, SLT, CEC, President's Council meetings, CPAC, CBO's and community board meetings to spread the word! There's standing room in here only and over 30 people in the overflow room. We're not going anywhere. We want our money. We will be watching, we will be present, we will fight for our children. WE WANT OUR MONEY.

Rasheedah
