

Earth Day, Our Power, Our Planet!

Tuesday, April 22, 2025

- **What is Earth Day?**

This day's focus is to raise awareness about the environment and inspire people to take action.

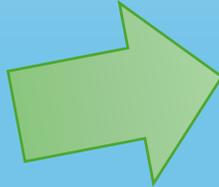

- **Why is Earth Day important?**

Our planet is in big trouble because of pollution. Recycling and waste management are things you can do to help save it.

- **What can you do about Earth Day?**

Volunteer for community cleanups, plant trees, recycle properly, educate people.

Act today! 
**You can help save
Phil the Dolphin!**
