

*In America
alone we
produce 4.9
pounds of waste
per person every
day!*

*Yet only 32%
of it is being
recycled!*

Our Power, Our Planet!
*We live on a beautiful world,
so let's keep it that way
and look at the stats
behind our waste!*

*We need change,
We need to help
our planet
recover from our
harm. For
everyone's sake!*
