

I'm thankful for my family, because they take care of me like getting me electronics so I can communicate with them and my friends. They also buy my food and drinks. I am thankful for my friends because they entertain me. Without my friends I would be bored. I am thankful for my home because it gives me shelter. Without a house I would be cold. I'm thankful that my family has money because without money I can't get things. These are the things I'm thankful for.
