

What I am thankful for

Anthony Dilluvio

I am writing this message to tell Senator John C. Liu what I am thankful for. I am thankful for my family. They are the best people I know. My mother takes care of me, my father works everyday to keep the lights on and my sister I am just lucky to have. I am also thankful for the country that gives me my rights and makes me a free person The United States of America. Im thankful for the amazing city I live in New York City.
