Essay Prompt: What are you thankful for?

I am thankful for my family because everyone is so joyful, funny, and makes me happy. Each time I'm with my family we do fun stuff or go for lunch or dinner. My family is the best and I will never change my mind. I am also thankful for food, water, and shelter provided to me, if we didn't have water we would die of dehydration. If we didn't have food we would die of starvation. And if we didn't have shelter everyone would be on the street.
