

There are certain things that I am thankful for. I'm thankful for my phone because I can do my homework on it. I can also call my friends with it. I am thankful for my siblings because they give me company. We can go to the trampoline park together. I am thankful for my pets because they always bring me happiness. I can play with them outside. Lastly, I am thankful for my parents because they keep me safe and support me. These are the things I am thankful for.
