

I am thankful for my family and friends because they do a lot for me. Both my family and friends are fun to talk to. Without them, I would be bored. I am thankful for technology because it helps me with my homework. It also helps me with talking to friends and family. I am thankful for my home because it keeps me safe from the rain and thunderstorms. I am thankful for having the best friends anyone could ask for because I can trust them the most. They are the people I can tell anything to. They are the ones who know a lot about me.

I am thankful for my Xbox because without it, I can't play my favorite games, and I would be very bored. My Xbox gives me a lot of happiness. Lastly, I am thankful for basketball because it gives me something to do when there is no one around. It is something that helps release my negative emotions and things like that. These are all the things I'm thankful for.
