

Hello, my name is Julianna Grosse ,

The people that I am thankful for are my brothers, my Mother & Father, and my two best friends, Sammi & Luna.

The reasons that I will always be thankful for my brothers are because they are always there for me if I need them and when I need them. I have four brothers, and we have some pretty big age gaps. Michael is my closest in age to me, he's nineteen. I usually talk to him the most because he still lives at home, because he commutes for college. My other brother that I talk to is Steven, he's 34 & he's the second oldest. I am thankful for my Mother & Father because they are always there for me. Me and my mom go shopping sometimes when we have money. Me & my dad go to different places, but he likes to call them adventures. We went to different places, we went to Philadelphia & Boston, and we went to other places like that. Every year we go to this Greek festival since I was little. This year we went, and we brought my niece. Her name is Eevee. We watched fireworks and walked around.

I've known Sammi since the fourth grade. We really weren't the best of friends till the eighth grade, that's when we really started talking. I am glad we did. I don't ever want to go back to my life without her and Luna. Luna is a girl I met in the sixth grade, we have been friends since, but we lost connection in the seventh & eighth grades. I started talking to her in the ninth grade. I am so grateful that I decided to. I couldn't begin to imagine my life without them in it. The ways that I show my gratitude for them is that I clean the house, & I do the cooking if my mom's too tired. I bake for my family & friends, & they are always so appreciative when I make them treats & food. I will always be there for them, my friends & family, I'll just listen to them if they need someone to talk to, I won't interrupt.
