

Hello my name is Luke Lattanzio I am in 7th Grade at Sleepy Hollow Middle School in Sleepy Hollow, NY. I am most thankful that my mom beat breast cancer. I'm writing this in October which is Breast Cancer Awareness Month. Breast cancer awareness is important for a few reasons mostly to make sure that people stay healthy. Awareness can mean getting checked by doctors, understanding cancer risks and also awareness of how important funding cancer research is for so many people. My mom is the best I am happy that she beat breast cancer and that is why I am thankful.
