

SAMIR

I am thankful for my mom and dad because they took care of me when I was young and made food for me, and the money that my family has to keep taking care of me. I'm also thankful for my school and the cool events and activities that happen in summer school, like last year's field trip, Davin Busters, and my pets and my stuff in my room, like my PlayStation and TV, and I show my gratitude to my parents by doing chores and helping at my moms butey supply shop and helping around the house with stuff.
