

I am thankful for my family because they take great care of me and they also help me if I am struggling on homework. For example, my dad breaks down some math terms to make it simpler so I understand the problem as well as my mom. My mom also cooks great food and keeps me healthy. I am also thankful for my brother because he is a good role model and he inspired me to learn the piano. I am also thankful for my dog because he is very nice to me and I love giving him treats. I am thankful for my house because it provides me shelter and some people don't have shelter. Some people sleep on the streets so I am thankful to have a bed and have shelter in case it is raining. I am thankful for my friends because they are very funny and I enjoy playing video games with them. My friends also help me with math problems sometimes and help me understand it. Finally I am thankful for living because I get to enjoy everyday life that includes hanging out with my friends and family!
